Subject: Thank you Mary Anne from the Allens

Hello Mary Anne,

Just a quick e-mail to once again say a big thank you for the help you gave Joe to stop bedwetting, and the support you have given us to be able to work with Joe over the last few months.. It was oh so worthwhile in the end. It's so great that Joe is dry now and can look forward to the rest of his childhood and teenage years without the distress and frustration of bedwetting, which I (John) know from personal experience to be such a tremendous burden.

Joe continues to find getting up in the morning easier and his behavior and school work are improving also. I'm sure this is in no small part due to his improved sleeping patterns: **the treatment gives and gives!**

We would happily recommend your treatment to anyone and would gladly act as reference, should you have any potential clients in the U.K. who would like to talk to someone who had completed your course, as we remember this being very helpful and reassuring to us way back at the start.

Lastly is a message from Joe himself and some pictures of us that he wanted to send you to show you what we look like!

We'll miss talking to you every fortnight! Wishing you and all at ETC every success in the future.

Thanks again, John, Sian, Joe and Isobel Allen

*Thank you so much for helping me get through wetting the bed.
I am officially dry all night every night!!*
