

Dallas, Texas

Dear Claudia,

Thank you for your assistance these past several months. We are thrilled to have completed the program! What a great accomplishment for Robert! The path we chose to take with you accomplished the most important goal –a dry bed and a quality sleep.

We asked Robert if he was comfortable with providing a letter or comment and he asked not to. (This speaks volumes as to the stigma that goes with bedwetting). We will abide by his wishes – though maybe later you can state: A family from Texas was completely satisfied that their 12 year-old son completed the program in less than nine months.

Thank you again for your help and support
